Martin H McBride
Acting Assistant Manager
Environmental Restoration Division
DOE, RFO

APPROVAL OF 4-B96-ER-OPS-EMRG-3 02 FOR IMPLEMENTATION - NMH-650-93

Enclosed is the revised procedure on survey requirements for conditional and unrestricted use, which incorporates the Department of Energy (DOE) comments transmitted November 23, 1993. We are requesting approval of this procedure for use in EG&G Rocky Flats Plant's remediation activities, as addressed in the Environmental Restoration InterAgency Agreement. We are also returning the dispositioned Comment Review Sheet for DOE concurrence. Please return the original to us for the procedure history file.

Your assistance in expediting the DOE and any required agency review and approval would be greatly appreciated. This procedure change is necessary to implement the current requirement of the Rocky Flats Health and Safety Practices.

If you have any questions regarding the above contact Kaye Bentzen, Environmental Quality Support, at extension 8753
